W E D D I N G F L O W E R S

Our weddings embrace the seasons and so they are often filled with homegrown or British Flowers. We take inspiration from nature and our bouquets and arrangements will always contain interesting details such as seed heads, berries and grasses. You're likely to find peonies in May and June, roses and dahlias through the summer and blooms and berries in the Autumn. Bouquets can be finished with hand dyed silk ribbons. We are currently working towards our weddings being foam free, we have greatly reduced our use of floral foam already and will endeavour to have eliminated it from our weddings as soon as possible.

*Wild &

flowers*

No two couples are the same, which means no two weddings are the same. We don't offer packages as everything is designed bespoke to the couple. We will invite you for a consultation to discuss ideas and themes for your special day, before creating an itemised quote based on our chats. We love to let our creativity run wild so there won't be stem counts or exact bouquet copying, trust us to create something truly beautiful.

From initial consultation to setting up and taking down on your wedding day, we are on hand to help you.

Our weddings have taken us the length of Wales; from country hotels, yurts and tipis to barns and village halls, we have experience in dressing venues of all types for your special day. We also have a good selection of props and hire items to make your wedding truly unique. Please enquire for more details.

No21 Flowers is a gypsophila free florist #savingbridesfromgyp

MICRO WEDDINGS

Due to the cost of flowers and minimum order quantities for individual flower varieties, we cannot reduce our prices. We are, however able to offer our “simply seasonal” wedding flowers.

This means that, using the best seasonal flowers, we can create beautiful designs for you, the only specification being the colour choice.
